

Amendment to BURIAL URN FOR A PLURALITY OF CREMATED REMAINS

Daniel J. Gersten, inventor

Serial No. 10/612,638

Filed July 1, 2003

Page 2 of 6

In the Claims:

1.(currently amended) A burial urn for a plurality of cremated remains comprising:

a housing having an internal chamber which is closed except for the top which is open, said housing having a polygonal exterior surface divided into a series of separate panels, each said panel having mounted thereon a name plaque with ~~[[their]]~~ there being a plurality of name plaques on said housing;

a plurality of containers being removably located within said internal chamber, each said container to align with a said name plaque with there being an equal number of containers to the number of said name plaques, each said container having an internal compartment into which a cremated remains is to be stored;

a separate container lid for each said container, each said container lid to function to close a said internal compartment; and

a housing cover closing said internal chamber, said housing cover engaging with said top, said housing cover being removable to gain access to said containers and said container lids.
